In electrical engineering, treeing is an electrical pre-breakdown phenomenon in solid insulation.It is a damaging process due to partial discharges and progresses through the stressed dielectric insulation, in a path resembling the branches of a tree.Treeing of solid high-voltage cable insulation is a common breakdown mechanism and source of electrical faults in underground power cables.

Engineering seeks to create new processes, products, methods, materials, or systems that impact and are beneficial to our society. To enable its graduates to lead the advancement of technology, the Case School of Engineering offers fourteen degree programs at the undergraduate level (twelve engineering degrees, plus the BS in computer science and the BS in data science and analytics).
