Beginning Programming with Python For Dummies . by John Paul Mueller. Python is one of the fastest growing programming languages, and no wonder. It requires three to five times less time than developing in Java, is a great building block for learning both procedural and object-oriented programming concepts, and is an ideal language for data analysis.

Learn to Code. If you've ever spent hours renaming files or updating hundreds of spreadsheet cells, you know how tedious tasks like these can be.

## **Automate the Boring Stuff with Python**

PHP is easy to learn as compared to JAVA because it is easier to learn and use. That is why there are so many PHP developers these days. The developers can use JAVA, PYTHON or .NET, it is completely up to them but from my point of view PHP had significant edge over its competitors as it is open source and stable.
