I used the information from JCAHPOsâ€™™ Criteria for Certification and Recertification Appendix A to create this study guide. I wanted to make sure that every section and subsections that JCAHPO tested was covered. I then reordered the chapters from the highest percent tested to the lowest percent.

A Medical Assistant, also known as a healthcare assistant in the UK is an allied health professional that supports the work of physicians and other health professionals, usually in a clinic setting. Medical assistants also referred as "Clinical Assistant" can become certified through an accredited program usually offered through a junior or community college.

loss of neuromuscular coordination. Atropine poisoning, although distressing, is rarely fatal even with large doses of atropine, and is self-limited if the cause is recognized and the atropine medication discontinued. Treatment includes supportive measures including maintaining a patent airway and assisting respiration if needed.

SUMMARY: IgG4-related disease is characterized by histologic fibrosis with IgG4-positive plasma cell infiltration. Our study evaluated MR imaging features of IgG4-related disease in the head and neck and brain. Images from 15 patients were retrospectively evaluated for the location, signal intensity, and enhancement patterns of lesions.
