Metrology is the science of measurement. It establishes a common understanding of units, crucial in linking human activities. Modern metrology has its roots in the French Revolution's political motivation to standardise units in France, when a length standard taken from a natural source was proposed. This led to the creation of the decimal-based metric system in 1795, establishing a set of ...

The Instructional Services Section is responsible for assisting schools with the frameworks/systems/supports that are needed to provide effective instruction.

Instructional Services

Tenth grade, sophomore year, or grade 10 (called Year 11 in England and Wales) is the tenth year of school post-kindergarten or the tenth year after the first introductory year upon entering compulsory schooling. In many parts of the world, the students are 15â€™16 years of age, depending on when their birthday occurs. The variants of 10th grade in various nations are described below.

Play is essential to development because it contributes to the cognitive, physical, social, and emotional well-being of children and youth. Play also offers an ideal opportunity for parents to engage fully with their children. Despite the benefits derived from play for both children and parents, time for free play has been markedly reduced for some children.
