

principles of biology 112 pdf

Natural selection is the differential survival and reproduction of individuals due to differences in phenotype. It is a key mechanism of evolution, the change in the heritable traits characteristic of a population over generations. Charles Darwin popularised the term "natural selection", contrasting it with artificial selection, which is intentional, whereas natural selection is not.

Natural selection - Wikipedia

Liberty University (LU), also referred to as Liberty, is a private Christian university in Lynchburg, Virginia.. Liberty is one of the largest Christian universities in the world and the largest private non-profit university in the United States, measured by student enrollment.
