

quality assurance for chemistry pdf

Quality assurance (QA) is a way of preventing mistakes and defects in manufactured products and avoiding problems when delivering solutions or services to customers; which ISO 9000 defines as "part of quality management focused on providing confidence that quality requirements will be fulfilled". This defect prevention in quality assurance differs subtly from defect detection and rejection in ...

Quality assurance - Wikipedia

The EPA Quality Program provides requirements for conducting quality management activities for all environmental data collection and environmental technology programs performed by or for the Agency.
