It has frequently been said that professional coaches work with clients by carefully avoiding getting involved in their problems, to propose answers or to offer options and solutions. Probably just as often, it has been also said that coaches accompany their clients to find their own solutions by asking coaching questions.. If these affirmations are relatively true, the second one calls for ...

Complexity characterises the behaviour of a system or model whose components interact in multiple ways and follow local rules, meaning there is no reasonable higher instruction to define the various possible interactions.. The term is generally used to characterize something with many parts where those parts interact with each other in multiple ways, culminating in a higher order of emergence ...
