North American English regional phonology is the study of variations in the pronunciation of spoken North American English (English of the United States and Canada) – what are commonly known simply as "regional accents". Though studies of regional dialects can be based on multiple characteristics, often including characteristics that are phonemic (sound-based, focusing on major word ...

Approximately 6% of uranium in RAR at less than US\$130/kg is inaccessible for mining. In previous years, all uranium deposits in Queensland (Qld) were inaccessible because State Government policy at the time prohibited uranium mining, but in October 2012, the government lifted its ban on uranium mining so that Qld deposits became accessible.
