The second edition of Core Servlets and JavaServer Pages is now available for free access in PDF. See links below. Readers of the older edition can still access the first edition here.

Free Online Version of Core Servlets and JavaServer Pages

MythTV is a free and open-source home entertainment application with a simplified "10-foot user interface" design for the living room TV. It turns a computer with the necessary hardware into a network streaming digital video recorder, a digital multimedia home entertainment system, or home theater personal computer. It can be considered a free and open-source alternative to TiVo or Windows ...

MythTV - Wikipedia

In Unix-like operating systems, a device file or special file is an interface to a device driver that appears in a file system as if it were an ordinary file. There are also special files in MS-DOS, OS/2, and Microsoft Windows. These special files allow an application program to interact with a device by using its device driver via standard input/output system calls.
