The Collins class of six Australian-built diesel-electric submarines is operated by the Royal Australian Navy (RAN). The Collins class takes its name from Australian Vice Admiral John Augustine Collins; all six submarines are named after significant RAN personnel who distinguished themselves in action during World War II. The boats were the first submarines to be constructed in Australia ...

1. Introduction [2] The supply of freshwater that supports human health and enterprise is basically constant, representing only about 1% of the water available worldwide. Good quality, nonsaline water is the global asset most important in satisfying the increasing demand for basic food, fiber, feed and fuels.

Methods and technologies to improve efficiency of water

Immersion in Water During Labor and Delivery. ABSTRACT: Immersion in water during labor or delivery has been popularized over the past several decades. The prevalence of this practice in the United States is uncertain because it has not been studied in births outside of the home and birth centers, and the data are not recorded on birth certificates.

Seabirds (also known as marine birds) are birds that are adapted to life within the marine environment. While seabirds vary greatly in lifestyle, behaviour and physiology, they often exhibit striking convergent evolution, as the same environmental problems and feeding niches have resulted in similar adaptations. The first seabirds evolved in the Cretaceous period, and modern seabird families ...
