Heart failure symptoms usually develop over time as your heart becomes weaker and less able to pump the blood that your body needs. Heart failure usually results in an enlarged heart (left ventricle). What is Heart Failure? Cardiovascular Conditions The Normal Heart has strong muscular walls which contract to pump blood out to all parts of the body.

The Normal Heart Failure?

heart is the pressure that the ventricle must overcome to pump blood [1] and can be thought of as the load the heart see as it pumps blood through the body. If afterload is increased, the heart must produce higher pressure and less stroke volume, keeping the area of the PV loop constant [3].

The Way of the Heart had its genesis in a seminar that Henri Nouwen taught at Yale University. In this short but profound book Henri turns to the spirituality of the Desert Fathers to show his readers a spiritual path away from the noise, busyness and consumerism of modern life toward a life centered in God.
