What is Narrative Therapy? A Definition. Narrative therapy is a form of therapy that aims to separate the individual from the problem, allowing the individual to externalize their issues rather than internalize them. It relies on the individual's own skills and sense of purpose to guide them through difficult times (Narrative Therapy, 2017).

It is a responsibility we are failing to meet. According to statistics from the U.S. Department of Education, the gap in eighth-grade reading and math test scores between low-income students and their wealthier peers hasn't shrunk at all over the past 20 years. (The gap between poor and wealthier fourth-grade students narrowed during those two decades, but only by a tiny amount.)
